COMMENTATOR'S CORNER

Summing up this week's performance:

Crawford & Camdenville have maintained their leads from last week, while in Manly, Seaforth & Manly Village remained tied in 1st place. Ferncourt & Wilkins are battling it out for 3rd place in Marrickville, and St Marys and Manly West are competing for 3rd place in Manly.

The Climate Clubs Cup Competition is proving to be a very tight race indeed! In a major development, Manly has jumped from 3rd to 1st place to take the lead. Congratulations, Manly schools!

THE ENERGY UPDATER AWARD

Every fortnight, one Climate Clubs player who has updated his/her own electricity usage online is crowned Energy Updater Extraordinaire and wins fame, fortune & glory! Okay, maybe not glory, but you WILL make all the other players jealous when they see what you've won if you update by 5pm on Tuesday 6th September...

A VIP 30 CARD from **OOVIE**, Australia's leader in latest release movie DVD rentals, with 30 free DVD rentals over the next 3 months (**worth \$90**)! Plus either an **EFERGY METER** to monitor your home's electricity use or a **FAMILY PASS** to a season game in the A-League (men's football), W-League (women's football), or family tickets to watch the Netball Test Match between Australia and England!

ROOKIE OF THE WEEK

So maybe you haven't got around to updating your energy use yet. You're feeling a little bit unsure about reading your own meter, or confused as to which kWh figure you should be looking for on your most recent electricity bill. Announcing...**the ROOKIE OF THE WEEK AWARD** for a player who updates his/her energy use online *for the very first time!* Shock your team members (and yourself) by giving it a go and be in the running to win fab energy-saving gadgets plus family sports tickets (described above)! Update by 5pm next Tuesday 6th September.

ROOKIE

Not sure how? You can update by entering a new meter reading **OR** your *average daily kWh usage* from your most recent electricity bill at the "Tracker" page at www.climateclubs.org.au

Stories from the playing field: Manly West Primary School, Manly

"The kids are really enjoying getting involved in 'saving the world' by something as simple as turning off the lights. It has really brought to life the concept of how we can all play a part in saving energy. Ruby (6) even criticised the electricity being used to cut down high tree branches, suggesting instead they could have just used their own strength to break off the branches, and save on energy!"

- Livingston family

“We have been far more energy conscious since joining the Climate Club and have really noticed the savings. The children have been involved with making sure we switch off unnecessary light switches and throwing on an extra jumper on cold days. My five year old was so keen she even requested having her bath in the dark one night!”

- **Stoddart family**

Important news: Climate Clubs Survey

We're giving Climate Clubs players another chance to win an iPad 2!

You will soon receive an email asking you to fill out a **short survey online** about your energy use at home and your experience of the Climate Clubs program so far. The survey is very important as it allows us to track the effectiveness of the competition. It is also a chance for you to have your say and help us improve Climate Clubs in future.

We'll also be mailing out a **paper copy of the survey** in case you'd prefer to submit a paper version. You can select which method works best for you. It should only take about 10 minutes of your time, and your responses will be kept strictly confidential to protect your privacy.

All players who complete this survey, plus the short end-of-competition survey we'll send out in November, will go into the prize draw to win an **iPad 2**. Plus you'll be helping us make the Climate Clubs Program stronger and better so that more and more families can join in saving energy around Australia. **Thank you!**

Energy Savings Tips: How to keep your electricity bill out of hot water!

1. Wash your clothes in cold water

2. Install a water-saving shower head, and time your showers: by reducing showers by 3 minutes you can save up to \$105 a year on your electricity bills!

In next week's competition update...

Find out how much **MONEY** your Climate Club can raise for your school, just by saving energy at home!
